

# Chalice of Agrippa

---

Millennia ago, under siege from the forces of Chaos, the population of a planet now only remembered as Agrippa's World was rallied to fight a battle under the Chalice of Agrippa.

All images show a cleric known as Agrippa holding a chalice aloft, so successful was their struggle, that the invasion forces used fire from their fleet to melt the world's entire crust.

So uplifting a story this is to Ecclesiastes, that they Canonised Agrippa and is seen as a shining example on how to handle adversity.
