

GIA

The Global Intelligence Agency is the premier intelligence collection, analysis and dissemination branch within the New Earth Government. Operating on a global, rather than regional, basis, it spans the world trying to find as much information about the strengths and weaknesses of the NEG's enemies such as the Migou, the Rapine Storm and the Esoteric Order of Dagon. The GIA is mostly an exterior-facing intelligence agency, as opposed to the FSB, which is an interior-facing security agency.

The GIA is composed of the following divisions:

- GhOST, Global Operations, Surveillance and Tactics (inc. Blackspire)
- OSAT, Office of Science and Arcane Technology
- OCI, Office of Central Intelligence
- OA, Office of Administration (inc. Global Broadcast Information Service)
