

Omega Squad - Mission Report II

Hail Watch Captain,

Contact with natives made. Local religion is based on images of the Emperor and Primarches, with legends of a golden warrior how descended from the heavens to fight monsters.

As expected, the locals respect martial prowess above all else. Contact with merchant revealed he has daggers, made of the claws from the similar, if not identical for of Xenos that were encountered on Lords Home. Top priority of kill team moved to focus on confirming this threat. Tonight we will leave settlement without knowledge of natives to investigate rumours of activity there.
